Documents requested in the Graduate Application

The submission of scanned documents in the registration form must necessarily be in PDF format.

The maximum size allowed for each file scanned (in PDF format) and sent at the time of registration is 3M (3 megabytes)

The only scanned document from the list that is mandatory to register is the **academic file** (undergraduate, and master's degree if attended). The submitted academic file must contain all disapprovals and enrollment cancellations (If there are disapprovals, the Declaration of Disapprovals are also mandatory - signed by the candidate attesting that the submitted transcripts show all failures and enrollment cancellations).

The registration form for Graduate Studies is extensive.

Only start the process after having the necessary documents scanned in PDF format.

After submit your application, a PDF will be presented with the information that you submitted and you will receive a email confirming your registration.

Below is the list of documents requested:

- Individual registration (CPF) ou Passport (optional)
- **Academic file of undergraduation**
- **Master's academic file**
- diploma of undergraduation * (exceptionally, this can be replaced, temporarily, by Certificate of Completion of undergraduation);
- Diploma or Master's Completion Certificate (if any)
- Updated Curriculum
- Candidate's letter of interest (motivation for entering the course)
- Disapproval Statement (can be handwritten and there is no defined template).
- Results on the GRE Physics Test and/or other internationally recognized exams - if you have more than one, they must be scanned into a single PDF file.
- Language Certificates - if you have more than one, they must be scanned in a single PDF file.
